# BOXER

**BOXER ALSO FALLS INTO THE CATEGORY OF HEAVIER LEATHER TYPES** - Boxer, like TUNDRA and PAMPAS, is attached directly to the wall or floor. The appearance of Boxer is cool but also chic. It is a lively tile with many color shades, which provides a very varied and characterful appearance. It can easily be combined with hard materials such as stone, concrete or wood.

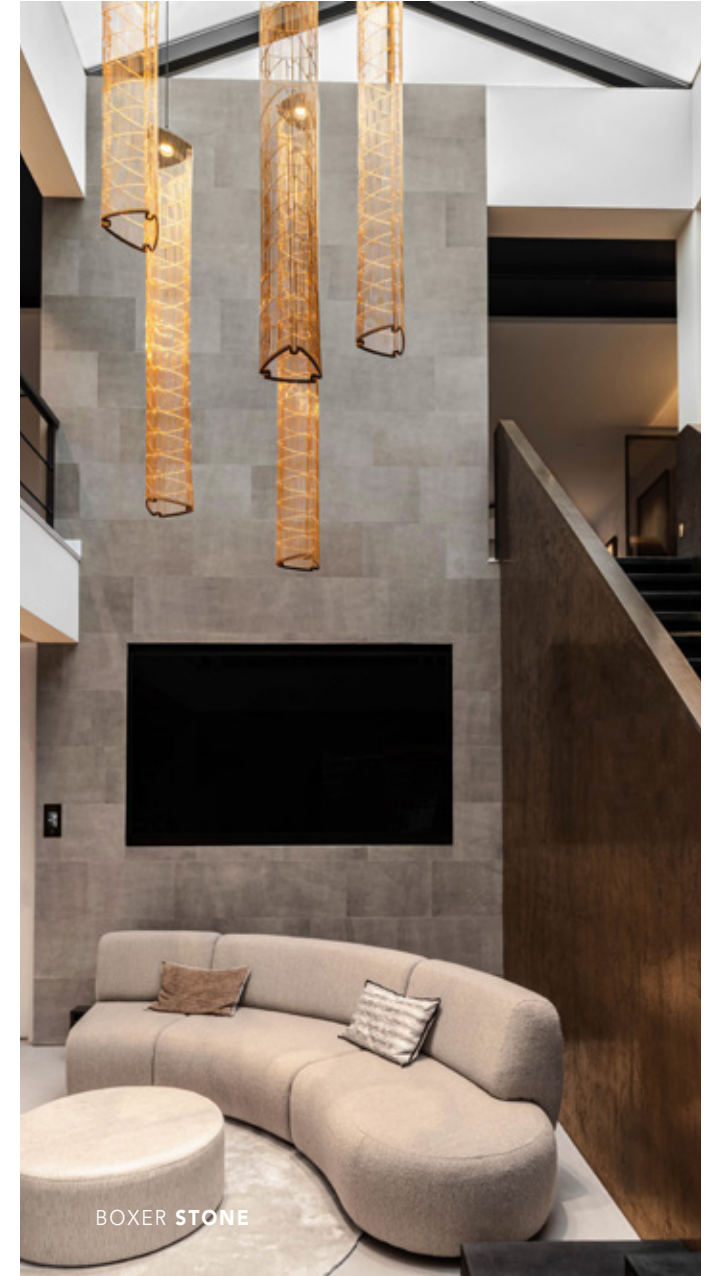

**BOXER VALT OOK IN DE CATEGORIE ZWAARDERE LEERSOORTEN** - Boxer wordt net als TUNDRA en PAMPAS rechtstreeks op de wand of vloer bevestigd. De uitstraling van Boxer is stoer maar ook chic. Het is een levendige tegel met veel kleurschakeringen wat zorgt voor een heel afwisselende en karaktervolle uitstraling. Uitstekend te combineren met harde materialen zoals steen, beton of hout.
