CHARACTERISTICS

- Elegant
- Very soft and cuddly skins
- Uniform in color
- Touch can affect the nap and therefore the visual appearance because it may change the "direction" of the fibers.

SPECIFICATIONS

Type: European bovine hide
Top layer: Sanded
Panel thickness: 6 mm
Max. tile size: 900 x 900 mm
Fire safety: BS 5852 (2006) Crib 5

SUITABLE FOR

- Walls
- Upholstery

PRICES (excluding VAT)

- Standard tiles per sqm: € 295
- Custom made tiles per sqm: € 350
- Rush order < 14 days: 15% surcharge

KENMERKEN

- Elegant
- Zeer zachte en aaibare huiden
- Egaal van kleur
- Door aanraking verandert de vleug en de kleurbeleving.

SPECIFICATIES

Type: Europese runderhuid
Toplaag: Geschuurd
Paneeldikte: 6 mm
Max. formaat tegel: 900 x 900 mm
Brandveiligheid: BS 5852 (2006) Crib 5

GESCHIKT VOOR

- Wanden
- Stoffering

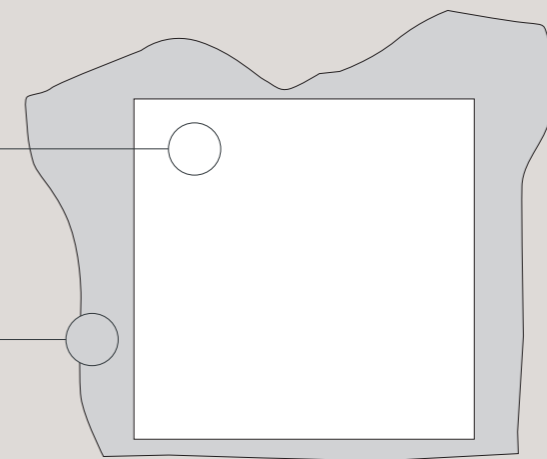

PRIJZEN [ex BTW]

- Standaard tegels per m²: € 295
- Maatwerk tegels per m²: € 350
- Spoedorder < 14 dagen: 15% toeslag

SUÈDE

SUEDE IS ONE OF ALPHENBERG'S HIGHLIGHTS - Unlike smooth leather, suede is not made from the top of the hide, but from the underside, which is much softer. The leather is brushed, giving it an open and velvety soft structure that is very cuddly and has a nap. The name suede comes from the French "Gants de suède", which means Swedish glove. But of course we use suede in the interior. Consider walls, fireplace walls, acoustic panels, but also as an inlay, for example. Suede looks best when we cover panels with this supple leather. This way we can install it tightly together, like a tile. It is beautiful on small but also large surfaces. And what makes Suede very attractive is that it is available in many colors and is easy to process. Just look at what we do with acoustic BROOM, for example. [page 120]

SUÈDE IS ÉÉN VAN DE PARADEPAARDJES VAN ALPHENBERG - Suède wordt in tegenstelling tot glad leder niet van de bovenkant van de huid gemaakt, maar van de onderkant die veel zachter is. Het leer wordt geborsteld, waardoor het een open en fluweelzachte structuur krijgt die heel aaibaar is en een vleug heeft. De naam suède komt van het Franse "Gants de suède", wat Zweedse handschoen betekent. Maar wij passen suède natuurlijk toe in het interieur. Denk daarbij aan wanden, haardwanden, akoestische panelen maar ook als inlay bijvoorbeeld. Suède komt het mooist tot haar recht wanneer we panelen omkleden met dit soepele leer. Zo kunnen we het strak tegen elkaar monteren, als een tegel. Het is prachtig op kleine maar ook op grote oppervlakken. En wat suède erg aantrekkelijk maakt is dat het in heel erg veel kleuren leverbaar is en gemakkelijk te verwerken. Kijk maar eens wat wij doen bij acoustic BROOM bijvoorbeeld. [pag. 120]
