

NUBUCK **CHALK**

NUBUCK **CAQUI**

# NUBUCK

**NUBUCK IS LIGHTLY SANDED ON THE TOP OF THE SKIN** - This creates a velvety appearance and soft feel. It is smooth and has a matte, subdued appearance. The structure of the skin is still visible but not dominant. The color is even and has few color nuances.

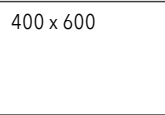

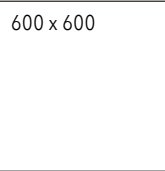

**NUBUCK WORDT AAN DE BOVENKANT VAN DE HUID LICHT GESCHUURD** - Daardoor ontstaat er een fluweelachtige uitstraling en voelt het zacht aan. Het is soepel, en heeft een matte ingetogen uitstraling. De structuur van de huid is nog wel zichtbaar maar overheerst niet. De kleur is egaal en heeft weinig kleurnuances.
